PROFESSIONAL SUMMARY

Results-oriented Software Engineer with over a year of hands-on experience in **full-stack web development** and **web infrastructure management**. I have a strong foundation in programming languages, Frameworks and Libraries such as Java, JavaScript, TypeScript, Node.js, Express, and, MongoDB, MySQL and PostgreSQL. In addition, I have gained advanced expertise in **React.js and Next.js and Node JS**, having worked extensively on React-based projects throughout my career. Adept at server management, DNS configuration, and website performance optimization. **Skilled in digital marketing tools, version control, and security measures**. Known for problem-solving abilities, strong communication, and the ability to work in fast-paced environments.

WORK EXPERIENCE

Associate software engineer | *Stenco IT Solutions*

(Oct 2023 - Present)

- **Web & Full-Stack Development:** Developed dynamic web applications using React, Next.js, Node.js, and PHP, ensuring responsive UIs with Tailwind CSS. Utilized JavaScript and TypeScript for both front-end and back-end development, focusing on code scalability and reusability.
- **Server & Hosting Management:** Managed Hostinger VPS for optimal performance, monitored server resources, and handled cPanel for deployment, backups, and domain management. Configured DNS records and ensured high uptime.
- **Security :** Implemented firewall configurations, SSL management, and security monitoring.
- **Marketing :** Led digital marketing efforts using Zoho Campaigns, and Facebook Ads Manager to drive traffic and improve online visibility.
- **Website Optimization:** Regularly updated company and client websites to ensure alignment with business goals and enhance performance.

Web Developer (Freelance) | *ItMartX*

(Jan - July 2024)

- Developed a responsive web application for seamless pizza ordering using React, ensuring an intuitive user experience. Built a full-stack hotel hall reservation system with React and PHP, featuring a user-friendly booking interface for efficient reservations. Additionally, created modern and responsive company portfolio websites using HTML and Bootstrap, effectively showcasing products and services to enhance brand visibility.

Software Engineer (Co-Founder) | *Crystal Digits*

(July 2024 - Present)

- Co-founded and managed an IT solutions company specializing in web development, digital marketing, and IT consultancy services.
